## PORTFOLIO MANAGERS

ALAN PULLEN AND CASEY MCLEAN, CFA

INVESTMENT PHILOSOPHY	OBJECTIVE	PORTFOLIO CONSTRUCTION	INVESTMENT RISKS
To invest in outstanding companies at attractive prices, while exercising a deep understanding of the macroeconomic environment to manage investment risk.	The Fund aims to achieve attractive risk-adjusted returns over the medium to long-term, while reducing the risk of permanent capital loss.  The Fund also aims to deliver 9% per annum, after fees, over the economic cycle.	A relatively concentrated portfolio of 20-40 high quality securities constructed with strict risk discipline and macroeconomic insight seeking to achieve strong risk-adjusted, not benchmark-relative returns. Cash and cash equivalents exposure between 0 - 10%.	All investments carry risk, returns are not guaranteed and there is a risk that investors may lose money on any investment they make. The Fund's Product Disclosure Statement (PDS) sets out the significant risks relevant to the Fund. You can view the PDS at <a href="http://www.magellaninvestmentpartners.com">www.magellaninvestmentpartners.com</a>

## PORTFOLIO ACTIVITY - MARCH QUARTER 2026

In the March quarter, one new stock was added to the portfolio and one stock was exited. We entered a new position in Berkshire Hathaway and exited the position in Brookfield Corporation.

Berkshire Hathaway is a US conglomerate with operations across Insurance, Railways, Utilities, Manufacturing, Retailing and Services. Built by Warren Buffett, Berkshire's quality is underpinned by its unique structure that generates low-cost funding that is invested across cash and treasuries, equities and wholly owned businesses. We assess Berkshire to be attractively valued, and the company currently has almost US\$400 billion in cash and treasuries on the balance sheet available for deployment in either a buyback or listed equities, limiting downside risk.

Brookfield Corporation was exited after a period of strong performance and due to rising risks in the private credit space. While we continue to view Brookfield as the best-placed to navigate the headwinds in the asset class, given its exposure to real assets such as property and infrastructure, the business is not immune to the pressure in the sector.

<sup>3</sup> Sectors are internally defined. Geographical exposure is calculated on a look through basis based on underlying revenue exposure of individual companies held within the portfolio. Exposures may not sum to 100% due to rounding.

<sup>4</sup> Shows how much the stock has contributed to the fund's gross return for the period in AUD. Excludes non-disclosed positions established in the latest quarter.
