Important Information

This PDS provides a summary of significant information relating to the Fund, as well as information relating to the Vinva Australian Equity Alpha Extension Fund ARSN 147 934 352 (**Underlying Fund**).

You should consider this PDS before making a decision to invest in the Fund. The information in this PDS is of a general nature only and does not take into account an investor's personal financial situation, objectives or needs. Before making an investment decision based on this PDS, investors should consult a licensed financial adviser to obtain financial advice that is tailored to suit their personal circumstances.

The Responsible Entity and its employees, agents or officers do not guarantee the success, repayment of capital or any rate of return on income or capital or the investment performance of the Fund. An investor's investment does not represent deposits or other liabilities of the Responsible Entity.

An investment in the Fund is subject to investment risk, which may include possible delays in repayment and loss of income and principal invested. For more information on the risks associated with an investment in the Fund, refer to **Section 6**.

This PDS does not constitute an offer or invitation in any place in which, or to any person to whom, it would not be lawful to make such an offer or invitation. No action has been taken to register or qualify the Fund in any jurisdiction outside Australia and New Zealand. The distribution of this PDS outside Australia and New Zealand may be restricted by law and persons who come into possession of this PDS outside Australia and New Zealand should seek advice on and observe any such restrictions. Any failure to comply with such restrictions may constitute a violation of applicable securities laws.

Capitalised terms have the meanings given to them in the Glossary (refer to **Section 10**).

A copy of this PDS is available on our website or you can call us to request a copy free of charge. The information in this PDS is subject to change from time-to-time. Information that is not materially adverse information can be updated by us.

Updated information can be obtained through our website magellaninvestmentpartners.com. Investors may request a paper copy of any updated information at any time, free of charge.

A Business Day (**Business Day**) means a business day in New South Wales or such other day or days determined by us. Unless otherwise stated, in this PDS all monetary amounts referred to are in Australian dollars, all phone numbers are Australian numbers and all times are Sydney time.

The Target Market Determination for the Fund can be found at magellaninvestmentpartners.com and includes a description of the class of investors for which the Fund is likely to be appropriate.

1. Key features at a glance

Vinva Australian Alpha Extension Fund		For further information
Fund name	Vinva Australian Alpha Extension Fund	
ARSN	681 299 230	
Responsible Entity	Magellan Asset Management Limited ABN 31 120 593 946, AFSL 304 301 trading as Magellan Investment Partners.	Section 3
About the Fund	The Fund is a registered managed investment scheme. The Fund invests substantially all of its assets in the Underlying Fund, although it will also have some exposure to cash and cash equivalents.	Section 4
Investment objective	The Fund aims to outperform the S&P/ASX 300 Accumulation Index, after the Responsible Entity's fees, over periods of three years or longer.	Section 4
Risk level	High.	
Minimum suggested investment timeframe	At least seven to ten years.	Section 4
Underlying Fund	Vinva Australian Equity Alpha Extension Fund (ARSN 147 934 352) The Underlying Fund invests in a core holding of Australian listed securities and will use covered short selling as part of its investment strategy. The Underlying Fund may also use exchange traded derivatives to gain exposure to Australian listed securities or indices or for risk management. The Underlying Fund may also have some exposure to cash and cash equivalents.	Section 4
Responsible entity and investment manager of Underlying Fund	Vinva Investment Management Limited (Vinva) ABN 38 142 528 783, AFSL 351 058	Section 3
Minimum investments	The minimum initial investment is \$25,000. The minimum additional investment using BPAY® is \$500 and the minimum using EFT or cheque is \$5,000.	Section 5
Net asset value and Unit prices	The net asset value (NAV) of the Fund is calculated by deducting the liabilities (including any accrued fees) of the Fund from the aggregate value of assets. Unit prices are calculated by dividing the Fund's NAV by the number of Units on issue.	Section 4
Applying for Units and redeeming Units in the Fund	Investors can enter the Fund by applying for Units using the Application Form. Investors can exit the Fund by making a redemption request using the Withdrawal Form.	Section 4 & 5
Distributions	Distributions will generally be made annually, although they may be made more or less frequently at our discretion.	Section 4

Vinva Australian Alpha Extension Fund		For further information
Fees and costs	<p>Management fees of 0.77% per annum of the Fund's NAV (before management fees).</p> <p>Performance fees are not charged by us to the Fund. However, performance fees may be payable to Vinva from the Underlying Fund when the Underlying Fund's cumulative investment performance exceeds the cumulative return of the S&P/ASX 300 Accumulation Index plus 0.50% per annum. These performance fees are estimated to be 0.44% per annum of the Fund's NAV.</p> <p>Estimated transaction costs of 0.27% per annum of the Fund's NAV.</p> <p>The above amounts are quoted inclusive of GST, less any reduced input tax credits.</p>	Section 7
Buy/Sell Spread	0.25% buy spread and 0.25% sell spread.	Section 7

Risks	All investments are subject to risk. The significant risks associated with the Fund and its exposure to the Underlying Fund are described in Section 6 .	Section 6
Cooling-off and complaints	If you are a retail investor, a 14-day "cooling-off" period may apply to your initial investment in Units in the Fund. If you have any concerns or complaints, we have a complaints resolution process.	Section 9
General information and updates	Further information, including any updates issued by us and other statutory reports, can be found at magellaninvestmentpartners.com .	Section 9
Transaction confirmations	Investors who apply for Units or withdraw their investment will receive transaction confirmations from Investor Services.	Section 5
Annual tax reporting	Annual tax statements will be made available.	Section 8

2. Disclosure benchmarks and disclosure principles.

The Underlying Fund is a ‘hedge fund’ for the purposes of ASIC Regulatory Guide 240 (**RG 240**). As the Fund will invest substantially all of its assets in the Underlying Fund, RG240 requires certain information in relation to the Fund and the Underlying Fund be included in this PDS to assist investors in making a more informed decision about investing in the Fund.

The information below includes disclosures against the disclosure benchmarks prescribed by RG 240 and applies the disclosure principles set out in RG 240.

Disclosure Benchmarks	
Benchmark 1: Valuation of non-exchange traded assets	<p>It is not expected that the Underlying Fund will hold any non-exchange traded assets (other than cash).</p> <p>Vinva, as responsible entity of the Underlying Fund, has appointed an independent administrator, MUFG Corporate Markets FS Pty Ltd (MUFG) to value the assets, and calculate the unit price, of the Underlying Fund.</p>
Benchmark 2: Periodic reporting of key information	<p>We provide periodic reporting of key information, as set out below. This information is provided, where relevant, for each of the Fund and the Underlying Fund and is made available on our website at magellaninvestmentpartners.com as soon as practical after the relevant period.</p> <p>Monthly:</p> <ul style="list-style-type: none"> • current NAV and the withdrawal value of a unit; • net performance after fees, costs and taxes; • any changes to key service providers and their related party status; • any material change in risk profile; • any material change in strategy; and • any change in the individuals playing a key role in investment decisions. <p>Annually:</p> <ul style="list-style-type: none"> • performance since inception; • the actual allocation to each asset type held; • liquidity profile of the portfolio assets as at the end of the period; • the maturity profile of liabilities as at the end of the period; • the leverage ratio; and • changes to key service providers. <p>Since neither the Fund nor the Underlying Fund is expected to have non-exchange traded derivatives, annual reporting will not include derivative counterparties.</p>

Disclosure principle	Summary	For further information
<p>Principle 1: Investment strategy</p>	<p>The Fund aims to outperform the S&P/ASX 300 Accumulation Index, after the Responsible Entity's fees, over periods of three years or longer.</p> <p>The Fund invests substantially all of its assets in the Underlying Fund, a registered managed investment scheme for which Vinva is the responsible entity and investment manager. The Underlying Fund has the same investment objective as the Fund.</p> <p>Vinva uses an active systematic investment approach which harvests returns from Australian listed securities using a disciplined and repeatable process. Vinva's approach applies insightful research and technology to create a diversified and risk-controlled portfolio.</p> <p>The Underlying Fund invests substantially all of its assets in Australian listed securities (or exchange traded derivatives that provide exposure to Australian listed securities or indices) and holds both long and short positions. The Underlying Fund's portfolio will typically have over 100 positions (across long and short positions) with a gross exposure of up to 170% of the NAV of the Underlying Fund.</p> <p>The use of leverage, derivatives and short selling is outlined in more detail in Sections 4 and 6.</p> <p>All investments carry risk. Different strategies can carry different levels of risks. The Fund's key risks and risk management strategy are set out in Section 6.</p> <p>Investors will be notified as soon as possible of any material change to the investment strategy of the Fund, or the Underlying Fund, on our website at magellaninvestmentpartners.com</p>	<p>Section 4 & 6</p>
<p>Principle 2: Investment manager</p>	<p>We act as the Responsible Entity and investment manager of the Fund. As at the date of this PDS, there are no relevant significant adverse legal or disciplinary findings relating to us or our personnel.</p> <p>Vinva acts as the responsible entity and investment manager of the Underlying Fund. As at the date of this PDS, there are no relevant significant adverse legal or disciplinary findings relating to Vinva or its personnel.</p> <p>As the Fund invests substantially all of its assets in the Underlying Fund, the execution of the Fund's investment strategy does not rely on any particular key individuals within the Responsible Entity. The relevant qualifications and experience of those individuals playing a significant role in the investment decisions of the Underlying Fund are set out in Section 3.</p> <p>We, at our discretion, reserves the right to redeem its investment in the Underlying Fund without providing prior notice to investors. We will inform investors of any material changes to the Fund on our website at magellaninvestmentpartners.com.</p>	<p>Section 3 & 4</p>

Disclosure principle	Summary	For further information
Principle 3: Fund structure	<p>The Fund is a unitised registered managed investment scheme established in Australia. The Fund operates as a feeder fund in that it invests substantially all of its assets in the Underlying Fund, with some exposure to cash and cash equivalents.</p> <p>We have appointed Northern Trust Company (acting through its Australian branch) (Northern Trust) as the custodian of the Fund, and Apex Fund Services Pty Ltd (Investor Services or Apex) as the unit registry and administrator of the Fund. KPMG has been appointed as the auditor for the Fund.</p> <p>The Underlying Fund is a unitised registered managed investment scheme established in Australia. Vinva is the responsible entity and investment manager of the Underlying Fund.</p> <p>Vinva has appointed JP Morgan Chase & Co (JP Morgan) as the custodian, and MUFG as the administrator, of the Underlying Fund. PricewaterhouseCoopers Australia (PwC) has been appointed by Vinva as the auditor of the Underlying Fund.</p> <p>We have in place procedures to periodically monitor the performance of key outsourced service providers to provide reasonable assurance that services rendered are in accordance with written agreements and service level standards.</p> <p>There are no related party relationships arising from the Fund structure and all arrangements of the Fund are on arm's length terms. A related party of the Responsible Entity has an equity stake in Vinva (see Section 3 for more information), although the Responsible Entity and Vinva are not related parties.</p> <p>Risks associated with the Fund structure are discussed in Section 6.</p>	Section 3, 4 & 6
Principle 4: Valuation, location and custody of assets	<p>The valuation of the Fund is calculated by Apex, based on the unit price of the Underlying Fund received from MUFG, the administrator of the Underlying Fund. The assets of the Fund are generally valued on each Business Day. Other valuation methods and policies may be applied by us if appropriate. The assets of the Fund are held by Northern Trust as custodian.</p> <p>The assets of the Underlying Fund are held by JP Morgan as custodian unless held by Macquarie Bank Limited (Macquarie) as collateral for securities borrowed for the purposes of undertaking covered short sales.</p>	Section 4
Principle 5: Liquidity	<p>The Fund invests in the Underlying Fund, and the Underlying Fund primarily invests in Australian listed securities. The liquidity of the Fund is primarily determined by the liquidity of the Underlying Fund. As at the date of this PDS, we reasonably expect that we will be able to realise at least 80% of the Fund's assets within 10 days under normal market conditions.</p> <p>Further explanation of liquidity and the associated risks are detailed in Sections 4 and 6.</p>	Section 4 & 6
Principle 6: Leverage	<p>The Fund does not use leverage to generate returns. The Underlying Fund uses leverage by short selling. The gross leverage of the Underlying Fund will typically be up to 170% of the NAV of the Underlying Fund.</p> <p>Vinva's current policy is not to commercially borrow on behalf of the Underlying Fund other than temporary overdrafts which may be used as a means of managing certain cash flows.</p>	Section 4

Disclosure principle	Summary	For further information
Principle 7: Derivatives	<p>The Fund does not invest in derivatives. The Underlying Fund uses exchange traded derivatives such as futures and options to:</p> <ul style="list-style-type: none"> • gain or avoid exposure to specific investments, asset classes or markets; • to help manage risks; • reduce the cost of obtaining exposure to assets; or • exploit opportunities resulting from investments believed to be mispriced. <p>The risks of the Underlying Fund's use of derivatives are set out in Section 6.</p>	Section 4 & 6
Principle 8: Short selling	<p>The Fund does not short sell securities. However, the Underlying Fund uses covered short sales as part of its investment strategy.</p> <p>The risks of the Underlying Fund's use of short selling is set out in Section 6.</p>	Section 4 & 6
Principle 9: Withdrawals	<p>The Fund will typically accept withdrawals daily on any Business Day. Withdrawal proceeds will generally be paid within seven Business Days after our receipt and acceptance of a withdrawal request.</p> <p>Further information regarding withdrawals from the Fund is set out in Section 5.</p>	Section 5

3. Management of the Vinva Australian Alpha Extension Fund

Magellan Investment Partners is a dedicated distribution partner with nearly 20 years of expertise, focused on understanding client needs and delivering specialist investment solutions. We bring to market active investment solutions managed by Magellan Global Equities, Magellan Global Listed Infrastructure, Airlie Funds Management (Australian equities) and Vinva Investment Management (global and Australian equities). Magellan Investment Partners is headquartered in Australia and has around \$40 billion in assets under management, as at 30 September 2025.

Magellan Investment Partners is a trading name of Magellan Asset Management Limited, which is a wholly owned operating subsidiary of the ASX listed Magellan Financial Group Ltd (ASX: MFG) (**MFG**).

As Responsible Entity, we are responsible for overseeing the operations of the Fund and ensuring compliance with the Fund's Constitution (**Constitution**) and relevant legislation as well as establishing, implementing and monitoring the Fund's investment objective and strategy. We have the power to delegate certain duties and appoint other entities to perform tasks and provide services to the Fund in accordance with the Constitution and the Corporations Act 2001 (Cth) (**Corporations Act**). We have appointed The Northern Trust Company as the custodian for the Fund (**Custodian**) and Apex Fund Services Pty Ltd as the unit registry and administrator for the Fund.

We have entered into a distribution arrangement with Vinva, who is the responsible entity and investment manager of the Underlying Fund, to distribute Vinva's products (including the Underlying Fund) and investment strategies. MFG, through a wholly owned subsidiary, has an equity stake in Vinva's parent entity, Vinva Holdings Limited.

The nature of the Fund's investment strategy is such that substantially all of the assets of the Fund are invested into the Underlying Fund. Accordingly, the execution of the Fund's investment strategy does not rely on any particular key individuals within Magellan Investment Partners.

Vinva

Vinva is the responsible entity and investment manager of the Underlying Fund. Vinva is a global investment management firm formed in 2010 and is based in Sydney, Australia. It specialises in managing active equity strategies including long-only and long-short strategies across Australian and global equity markets for institutional and wholesale clients.

Vinva is entirely focused on delivering investment performance to its clients, and has a proven team and investment approach that has delivered consistent outperformance across global markets for three decades. Vinva applies an insight-driven systematic approach to investing. It shares a common investment philosophy and the majority of its team has worked together for a long time with a proven long-term track record. Vinva identifies alpha opportunities through its proprietary investment process and experienced investment professionals.

Vinva possesses a strong culture and a strong alignment of interests with its clients. Vinva focuses on three main areas it considers are necessary for success: investment management, client relationships and risk management.

The individuals at Vinva playing a key role in the investment management of the Underlying Fund are set out below. These individuals collectively devote a substantial amount of business time to executing the investment strategy of the Underlying Fund.

Morry Waked – Managing Director and Head of Investments

Morry is the founding Principal of Vinva, having started Vinva Investment Management in 2010. He is the Managing Director and Head of Investments. Morry oversees the strategic direction of Vinva and, in particular, leads the investment agenda and investment process.

Prior to starting Vinva, Morry spent over 12 years with Barclays Global Investors (**BGI**), and was Global Head and Chief Investment Officer (**CIO**) for BGI's Global Active Equity Business with responsibility for the Portfolio Management and Research functions of US

\$300 billion in actively managed global equities. Prior to becoming Global CIO, Morry held the dual role of CEO and Chief Investment Officer for BGI's Australian and NZ business which managed over \$50 billion in assets. Prior to joining BGI, Morry was the Head of Quantitative Research at Rothschild Asset Management having started his career at Legal & General in the Actuarial Research Division.

Morry holds a Master's Degree in Economics (majoring in Actuarial Science and Statistics) and a Bachelor of Economics, both from Macquarie University.

Nick Burt – Executive Director and Portfolio Manager

Nick is a Principal of Vinva having been with the firm since its inception in 2010 and is a member of the Vinva Board. Nick heads up the portfolio management team responsible for the allocation of capital across different trading strategies whilst optimising for factors such as diversification, liquidity and transaction costs.

Prior to Vinva, Nick was the Senior Portfolio Manager in BGI's Australian equities team responsible for trading long only and long-short portfolios. Prior to BGI, Nick spent ten years with JP Morgan, in roles including Head of Quantitative Research and Head of Centralised Execution.

Nick holds a Bachelor of Commerce, majoring in Finance (Honours) from the University of NSW.

Steve Malin – Lead Portfolio Manager

Steve joined Vinva in 2012 as a Portfolio Manager, responsible for managing various investment strategies including optimising for factors such as diversification, liquidity and transaction costs.

Prior to Vinva, Steve was Managing Director and Global Head of Quantitative Strategy for J.P. Morgan Equity Research based in Hong Kong. In this role he was responsible for six international research desks covering all the major equity markets, advising the client base on systematic investment strategies and portfolio construction techniques as well as providing regular and ad hoc research publications and bespoke analysis.

Prior to joining J.P. Morgan, he spent four years at Credit Suisse working in Australian equity research as a member of the quantitative data analytics team. Before entering the finance industry, Steve spent six years designing and developing software systems for a variety of blue-chip companies in London, Dublin and Sydney.

Steve holds a Bachelor of Engineering degree from Bristol University, UK, a Post Graduate Diploma in Knowledge Engineering and a Post Graduate Certificate in Applied Finance and Investment.

Trent Larcombe – Lead Portfolio Manager

Trent joined Vinva in 2012 as a Portfolio Manager, responsible for managing various investment strategies including optimising for factors such as diversification, liquidity and transaction costs.

Prior to joining Vinva, Trent spent 11 years at BGI and BlackRock Australia. From 2001-2008, Trent was a senior trader and portfolio manager with BGI in London where he focused primarily on the European active equity strategies which totalled \$50 billion AUD in assets. Beyond his responsibilities of enhancing the trading process and platforms, Trent was also involved in launching and managing the mid horizon long-short active strategy.

In 2008 Trent moved to Sydney with BGI where he was Head of Asia Pacific Equity Trading. He was responsible for establishing and managing the Asia Pacific equity trading desk, enhancing BGI's trading capabilities in the region, and responsible for the trading and implementation of all active Asian long-short equity strategies. In 2010, Trent was promoted to Managing Director and appointed Head of Trading across Asia Pacific for BlackRock, this involved all assets classes and investment products in the region. He was also a member of the Global Executive Trading Group and the Australian Leadership Group.

Prior to joining BGI, Trent spent five years with BNP Paribas in the portfolio management and trading group.

Trent holds a Bachelor of Business from Newcastle University plus a Master of Finance and a Graduate Diploma of Applied Finance from the Financial Services Institute of Australasia (Finsia).

4. About the Vinva Australian Alpha Extension Fund

Features and benefits of the Fund

Investing in the Fund offers investors direct and indirect exposure to a range of features and benefits, including access to:

- **Vinva's systematic investment expertise** - The opportunity to invest in an Australian equities portfolio actively managed by an experienced team specialising in systematic equities. Vinva's integrated team-based approach utilises quantitative signals and research to generate investment insights and has a track record of delivering consistent excess relative returns over the long-term.
- **Research and investment insight-driven innovation** – Continuous investment in research and innovation is a critical part of Vinva's investment process, supporting the identification of new market inefficiencies and the understanding of the potential rewards of each idea over different market conditions.
- **Australian equity markets through dynamic portfolio construction** - Vinva's dynamic portfolio construction process accesses attractive investment opportunities in the Australian equity market. Vinva constructs a diversified and balanced Australian equity portfolio, taking into account mispricing, transaction costs, taxes and risk. Vinva's systematic investment process maximises the number of independent active positions taken in a given period and the number of independent information sources used in the construction of the portfolios.
- **Proprietary technology and signals** - Vinva's proprietary technology and data-driven research allows the team to process large volumes of information quickly and systematically. The use of technology removes emotion and implements the investment opportunities identified by the research process into the portfolio in a highly disciplined and efficient way.
- **Risk-controlled active positions** - Vinva's long and short investment positions are diversified across various sectors, and seek to deliver consistent outperformance across different market conditions without being significantly biased towards any particular sector or investment style over time. By analysing data and investment insights on hundreds of Australian securities, a portfolio with many small active positions is created, with the aim of exploiting market inefficiencies in a risk-controlled manner.

Investment objective and strategy of the Fund

The Fund aims to outperform the S&P/ASX 300 Accumulation Index, after the Responsible Entity's fees, over periods of three years or longer.

The Fund invests substantially all of its assets in the Underlying Fund, a registered managed investment scheme of which Vinva is the responsible entity and investment manager. The Underlying Fund invests substantially all of its assets in Australian listed securities (or exchange traded derivatives that provide exposure to Australian listed securities or indices).

The Fund's assets are typically invested within the following asset allocation ranges¹:

Asset class	Minimum %	Maximum %
Underlying Fund	95	100
Cash and cash equivalents	0	5

¹ The actual asset allocation of the Fund may temporarily move outside these ranges in certain circumstances including, but not limited to, market movements, or due to applications into or withdrawals from the Fund.

The Fund has no specific diversification guidelines or limits, nor are there any significant dependencies or assumptions underpinning the Fund's investment strategy.

The minimum suggested time frame for holding an investment in the Fund is at least 7 to 10 years.

Investment approach of the Underlying Fund

The Underlying Fund aims to outperform the S&P/ASX 300 Accumulation Index, after Vinva's fees, over periods of three years or longer.

Vinva uses an active systematic investment approach which harvests returns from Australian listed companies using a disciplined and repeatable process. Vinva's approach applies insightful research and technology to create a diversified and risk-controlled portfolio.

The Underlying Fund's universe of investible securities is typically the 300 largest listed companies on the ASX. The resultant portfolio of the Underlying Fund is typically expected to have exposure to over 100 positions across long and short positions). The Underlying Fund will also have some exposure to cash and cash equivalents.

Vinva's systematic investment approach seeks to harvest returns from opportunities identified by their experienced investment team and data-driven research process. With the use of leading-edge technology and robust risk controls, Vinva implements these opportunities into its portfolios in a highly disciplined, repeatable and efficient way. These strategies are designed with the aim to deliver consistent outperformance through different market environments over time.

Vinva's systematic investment approach utilises investment insights, markets trends, and relative mispricings that other investors may overlook. Its investment team identifies alpha opportunities by analysing large amounts of data from various sources. It develops insight-driven models, including security ranking, risk, and transaction cost forecasting models, using over 50 proprietary signals. These models consider changing market conditions, investor behaviour, information on competitors and customers, and liquidity opportunities.

Risk management is integral to Vinva's investment process, using a mix of external and internal tools to keep portfolio exposures within limits and minimise unintended risks. Vinva's portfolio construction process captures investment opportunities efficiently across multiple investment horizons, considering transaction costs, risk, and other factors. Vinva's focus on risk management means active sector or style positions are not large, resulting in a portfolio that does not have significant sector or style biases on average through time.

Vinva aims to understand and analyse the relationships between data and predictions, which serve as buy or sell signals to inform investment decisions. Predictive signals evaluate each security based on a wide range of criteria, such as earnings quality, balance sheet fundamentals, valuation, sentiment, and supply chain linkages. Some signals may be positive, others negative. Securities with predominantly positive signals are strong candidates for inclusion in the Underlying Fund's portfolio. Securities with predominantly negative signals are strong candidates for being held as short positions.

Vinva's proprietary tools and models process data on an intra-day basis from hundreds of sources. It has a disciplined approach to buying and selling securities and ensures that overweight, underweight and short positions are deliberate and based on sound economic principles. By leveraging data and investment insights on hundreds of Australian securities, it creates a portfolio with many small active positions, rather than a more concentrated portfolio with larger and riskier positions.

Fund structure

The Fund is structured as a unitised registered managed investment scheme established in Australia and governed by the Constitution. There are no materially onerous or unusual terms in the Constitution.

The Fund operates as a feeder fund in that it invests substantially all of its assets in the Underlying Fund with some exposure to cash and cash equivalents. When investors make an investment in the Fund, their money is pooled together with other investors' money. We use this pool to buy investments and manage them on behalf of all investors in the Fund in accordance with the Fund's investment strategy.

We are the Responsible Entity of, and issuer of Units in, the Fund. We are responsible for the day to day operations of the Fund and have appointed key service providers who are involved in the Fund's ongoing operation.

The Fund comprises assets that are acquired in accordance with its investment strategy with investors receiving Units when they invest. Investors do not have an interest in any particular asset of the Fund. The Fund invests substantially all of its assets in the Underlying Fund although the Fund will also have some exposure to cash and cash equivalents.

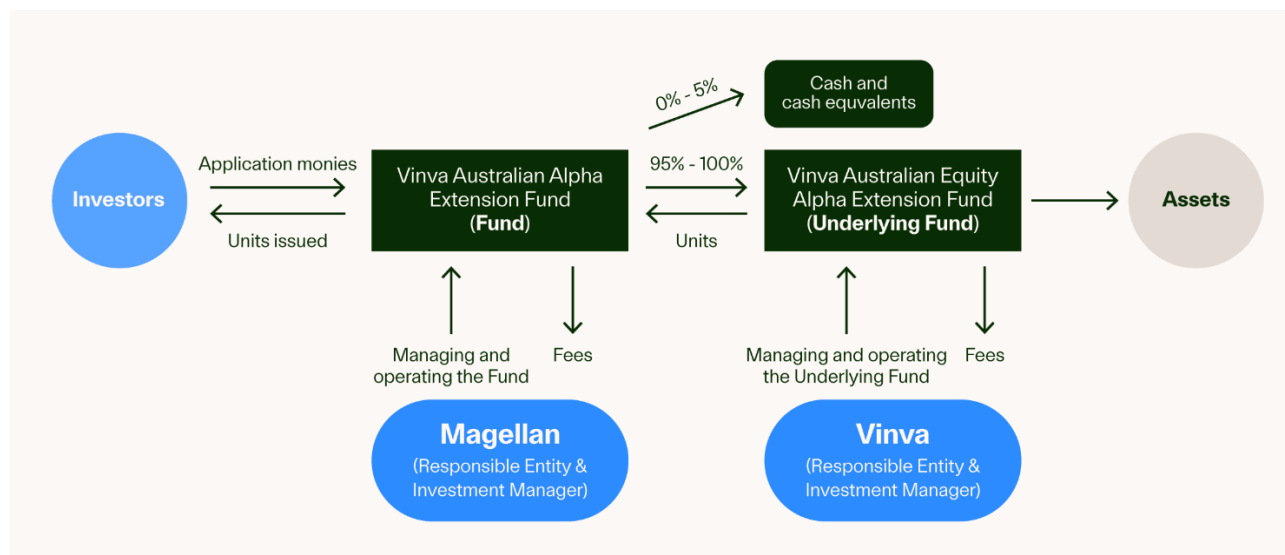

Northern Trust has been appointed to hold the assets of the Fund under a Custody Agreement. As Custodian, Northern Trust will provide services including safe-keeping the assets of the Fund and collecting the income of the Fund's assets. Northern Trust does not make investment decisions in respect of the Fund's assets that it holds. Apex has been appointed under a Registry Services Agreement as the unit registry and administrator of the Fund. KPMG has been appointed as the auditor for the Fund. We periodically monitor the performance of the services provided by its key outsourced service providers. All outsourced services are reviewed at least annually.

There are no related party relationships arising from the Fund structure and all arrangements of the Fund are on arm's length terms. Although a related party of the Responsible Entity has an equity stake in Vinva (see **Section 3** for more information), the Responsible Entity and Vinva are not related parties.

The Underlying Fund is a unitised registered managed investment scheme established in Australia. Vinva is the Australian domiciled responsible entity and investment manager of the Underlying Fund. There are no materially onerous or unusual terms in the constitution of the Underlying Fund.

Vinva has appointed JP Morgan as the custodian, and MUFG as the administrator, of the Underlying Fund. PwC has been appointed by Vinva as the auditor of the Underlying Fund.

The diagram below sets out the investment structure of the Fund and the Underlying Fund:

Valuation, location and custody of assets

Valuation and custody of the assets of the Fund

The Fund holds units in the Underlying Fund as well as cash and cash equivalents. We have appointed Apex, an independent fund administrator, to calculate the unit price of the Fund. The assets of the Fund are valued on each Business Day by Apex based on the unit price of the Underlying Fund received from MUFG, the administrator of the Underlying Fund. The assets of the Fund are held by Northern Trust as custodian.

Valuation and custody of the assets in the Underlying Fund

The Underlying Fund invests substantially all of its assets in Australian listed securities or exchange traded derivatives that provide exposure to Australian listed securities or indices with observable exchange traded prices. As the administrator of the Underlying Fund, MUFG values the assets and determines the Underlying Fund's unit price on each Business Day, which is generally calculated on the next Business Day. The assets are generally valued at the latest available market value. However, other valuation methods may be applied by Vinva if deemed appropriate. Any discretion applied by Vinva in determining asset valuations is done so in line with Vinva's valuation policy. Vinva does not price any assets in the Underlying Fund, rather, it analyses the prices and valuations provided by MUFG, and independently reconciles these against its own internal books and records.

The Underlying Fund's assets are held by JP Morgan as custodian unless held by Macquarie as collateral for securities borrowed for the purposes of undertaking covered short sales. The securities of the Underlying Fund are clearly identified from the assets of Vinva and JP Morgan's other clients. For assets custodied with JP Morgan, MUFG performs a daily reconciliation with JP Morgan's records.

The Underlying Fund's assets are typically invested within the following asset allocation ranges and exposure guidelines:

Underlying Fund - Asset allocation and exposure guidelines¹	Number of positions – over 100 positions (across long and short positions)
	Gross exposure² – 140% - 170%
	Net exposure³ – 99% - 100%
	Exchange traded derivatives – 0-5%
	Cash and cash equivalents – 0-5%

¹ The actual asset allocation of the Underlying Fund may temporarily move outside these asset allocation and exposure guidelines in certain circumstances including, but not limited to, market movements, or due to applications into or withdrawals from the Underlying Fund. The Underlying Fund's asset allocation and exposure guidelines should not be considered as constraints and Vinva may invest outside these guidelines. These asset allocation and exposure guidelines may be adjusted from time to time without prior notice to investors. Investors will be notified as soon as possible of any material changes to the investment strategy of the Underlying Fund, on our website at magellaninvestmentpartners.com.

² Gross exposure is calculated as the sum of the Underlying Fund's gross long positions plus the sum of its gross short positions, as a percentage of the NAV of the Underlying Fund.

³ Net exposure is calculated as the sum of the Underlying Fund's gross long positions minus the sum of its gross short positions, as a percentage of the NAV of the Underlying Fund.

Liquidity

The Fund invests in the Underlying Fund, and the Underlying Fund primarily invests in Australian securities listed on the ASX. The liquidity of the Fund is primarily determined by the liquidity of the Underlying Fund. As at the date of this PDS, we reasonably expect that we will be able to realise at least 80% of the Fund's assets within 10 days under normal market conditions. We periodically receive and review reporting on the liquidity of the Underlying Fund from Vinva.

See "Restrictions on withdrawals" in **Section 5** and the "Liquidity of investments risk" in **Section 6** for more information.

Leverage

Leverage can be defined as the use of borrowing, or financial products (such as derivatives), to amplify the exposure of capital to an investment. The Fund itself will not be leveraged. However, the Underlying Fund will be leveraged through its covered short selling. See the "Short Selling" section below for more information. Vinva does not intend to undertake commercial borrowing to generate greater returns for the Underlying Fund. However, temporary overdrafts may be used as a means of managing certain cash flows.

Derivatives

The Fund itself does not use derivative instruments. However, the Underlying Fund may use exchange traded derivatives, such as futures and options, to:

- gain or avoid exposure to specific investments, asset classes or markets;
- to help manage risks;
- reduce the cost of obtaining exposure to assets; or
- exploit opportunities resulting from investments believed to be mispriced.

The Underlying Fund does not have any limits on the use of derivatives. However, such use is typically expected to be no more than 5% of the NAV of the Underlying Fund.

Short selling

The Fund will not short sell, however the Underlying Fund will use covered short selling as part of its investment strategy. A short position is established when the Underlying Fund 'borrows' a security from a securities lender and sells it on the share market (known as covered short selling). For these purposes, Vinva has entered into an Australian Master Securities Lending Agreement with Macquarie. Vinva may remove Macquarie as securities lender or appoint another securities lender in its place at any time without notice to investors. When the Underlying Fund has to return the borrowed security to its securities lender, it will buy the security on the share market. If the security has dropped in price, the Underlying Fund may benefit as it buys the security at a lower price to which it sold it. If the price of the security has risen the Underlying Fund will have to buy the security at a higher price to which it sold it, thereby making a loss.

For every \$1 invested, the maximum Vinva will invest is approximately \$1.70. Generally, this is achieved by purchasing \$1.35 on long positions and then covered short selling of \$0.35. In this example, this means the gross level of leverage for the Underlying Fund will be approximately 170% of the NAV of the Underlying Fund, while the net level (based on the dollar value of long minus short stock positions) will be equal to or less than its NAV. Set out in the table below are hypothetical examples outlining the potential gains and losses that can result from covered short selling shares:

<p>Underlying Fund - Potential gain from short selling</p> <p>The Underlying Fund borrows 100 shares of XYZ Limited and closes the position by selling at \$180 per share, with total sale proceeds of \$18,000.</p> <p>Four weeks later the Underlying Fund buys back 100 shares of XYZ Limited at \$130 per share, with a total purchase price of \$13,000. The Underlying Fund's net profit is \$5,000.</p> <p>The fees and costs incurred from borrowing and trading the assets have not been taken into consideration in the above example.</p>
<p>Underlying Fund - Potential loss from short selling</p> <p>The Underlying Fund borrows 100 shares of XYZ Limited and closes the position by selling at \$180 per share, with total sale proceeds of \$18,000.</p> <p>Four weeks later the Underlying Fund buys back 100 shares of XYZ Limited at \$230 per share, with a total purchase price of \$23,000. The Underlying Fund's net loss is \$5,000.</p> <p>The fees and costs incurred from borrowing and trading the assets have not been taken into consideration in the above example.</p>

The risks associated with covered short selling are managed by the Underlying Fund in the same way as the risks associated with holding a long security, that is, thorough research and ongoing monitoring of positions held to ensure they are consistent with the Underlying Fund's asset allocation and exposure guidelines referred to above.

The risks of the Underlying Fund's short selling activities are set out in **Section 6**.

Labour standards and environmental, social or ethical considerations

We do not take labour standards or environmental, social or ethical considerations into account when making decisions about selecting, retaining or realising the Fund's investments, including its investment in the Underlying Fund. Vinva, as investment manager of the Underlying Fund, utilises a systematic approach to the implementation of multiple investment insights, including environmental, social or governance (**ESG**) factors, which are treated no differently to any other investment insights. If there is a clear economic reason enabling Vinva to forecast returns, and Vinva considers the market is not correctly pricing the factor, then these ESG factors will be added to Vinva's suite of investment signals.

Changes to the Fund

We have the right to close or terminate the Fund, and make changes in relation to the Fund including, but not limited to, changes to the Fund's investment objective, asset classes, asset allocation ranges and distribution policy. In some cases, such changes can be made without prior notice. We will inform investors of any material changes to the Fund's details on our website at magellaninvestmentpartners.com, in its next regular communication or as otherwise required by law.

Units and Unit prices

Unit prices are calculated by dividing the NAV of the Fund by the number of Units on issue at the relevant valuation time. Unit prices fluctuate each day as the market value of the Fund's assets rise or fall. The unit price applicable to a given Business Day reflects the value of the net assets of the Fund on that Business Day. Unit prices are usually calculated each Business Day and usually published on our website by 7pm two Business Days following the day to which they are applicable.

When you invest in the Fund, we will calculate the Units you receive using the applicable entry unit price. The entry unit price is the unit price for that day plus an allowance for transaction costs incurred by the Fund. When you withdraw your investment in the Fund, the value of your Units will be calculated using the applicable exit unit price. The exit unit price is the unit price less an allowance for transaction costs. Further information about transaction costs can be found in **Section 7**.

Our NAV Permitted Discretions Policy provides further information about how we calculate unit prices. You can request a copy of the policy free of charge by contacting us.

Distributions

We intend to make distributions annually at 30 June. There may be periods where no distribution is made.

At our discretion, we may distribute capital in addition to net income or net capital gain amounts. For more details, see **Section 8**.

Under the AMIT rules, investors will be assessed for tax on the income of the class attributed to them. Where the income of the class exceeds the amount of the distribution paid to investors (**Excess**), we may, in a particular year, retain or accumulate in the class the amount of the Excess. In this scenario, the income of the class that is attributed to you (and that must be included in your income tax return) will be more than the cash distribution paid to you. The tax cost base of your Units will increase to the extent of the Excess.

We will send you an AMIT Member Annual Statement (**AMMA Statement**) after the end of each financial year detailing the amounts attributed to you to assist in the preparation of your tax return.

You can choose to have your distributions directly credited to your Australian or New Zealand bank account or automatically re invested as additional Units in the Fund. No fees or transaction costs will be payable in respect of distributions that are automatically re invested. Distributions are automatically reinvested unless you nominate to have your distribution paid to your nominated bank account. If you have provided a New

Zealand bank account, the conversion of your Australian dollar distribution to New Zealand dollars will be processed by the Fund's bank at the exchange rate prevailing at the processing time.

The Constitution permits us to require that your distributions be reinvested as additional Units in the Fund. We will provide a notification on our website if, in relation to a particular distribution, we have elected to require the reinvestment of the distribution.

Governance measures over the Underlying Fund

We have entered into a distribution arrangement with Vinva to distribute Vinva's products and investment strategies, including the strategy of the Underlying Fund which it is distributing through the offering of interests in the Fund. We have evaluated Vinva's investment philosophy, investment team, management team, risk management capabilities and operational infrastructure. We have also evaluated the Underlying Fund's investment strategy, investment guidelines and offering document. As part of our operational due diligence on the Underlying Fund, we have reviewed Vinva's due diligence evaluations of the Underlying Fund's key service providers and its ongoing monitoring of those key service providers.

5. How to Transact

Applications

Applications will be processed and Units in the Fund will be issued only following the:

- acceptance of a valid Application Form (including investor identification documents); and
- receipt of your application monies in cleared funds.

Application monies are held in the Fund's application bank account until Units are issued. Any interest earned on the Fund's application bank account is retained by us.

You can make an additional application into an existing account at any time. The easiest means to make an additional application is by BPAY®. There is no requirement to send in an Additional Application Form if you are making an additional application by BPAY®.

If you intend to make an additional application by electronic funds transfer (**EFT**) or cheque, you can complete the Additional Application Form available on our website or you can fax, email or write to Investor Services.

BPAY® is registered to BPAY Pty Ltd ABN 69 079 137 518.

Minimum initial application amount	Minimum additional application amount (EFT or cheque)	Minimum additional application amount (BPAY®)	Application cut-off time
\$25,000	\$5,000	\$500	2pm on any Business Day

Valid applications accepted by Investor Services:

- before 2pm on any Business Day – will be processed using the entry unit price calculated for the following Business Day;
- after 2pm on any Business Day or at any time on a non-Business Day – your application will be considered as being received on the next Business Day and will be processed using the entry unit price calculated for the following Business Day.

Application monies in cleared funds can be received at any time on a Business Day to be processed using the entry unit price calculated for the following Business Day where a valid application is accepted by Investor Services before the cut-off time.

The entry price for an investor who applies for Units in the Fund will be the NAV per unit plus an allowance for transaction costs incurred by the Fund.

Withdrawing your investment in the Fund

Withdrawals are only processed following the acceptance of a valid Withdrawal Form or by notifying Investor Services otherwise in writing.

Minimum withdrawal amount	Minimum balance amount ¹	Withdrawal cut-off time
\$5,000	\$5,000	2pm on any Business Day

¹ If your balance falls below the minimum balance, we may compulsorily withdraw your remaining unitholding in the Fund and pay the balance to you.

Valid withdrawals received by Investor Services:

- before 2pm on any Business Day – will be processed using the exit unit price calculated for the following Business Day;
- after 2pm on any Business Day or at any time on a non-Business Day – your withdrawal will be considered as being received on the next Business Day and will be processed using the exit unit price calculated for the following Business Day.

The exit price for an investor who withdraws Units in the Fund will be the NAV per Unit less an allowance for transaction costs incurred by the Fund.

You will generally receive your withdrawal amount within seven Business Days of our receipt and acceptance of your withdrawal request. In certain circumstances such as during the distribution processing period including July of each year, payment of your withdrawal may be delayed by up to 21 days. Withdrawal proceeds are paid into your nominated Australian or New Zealand bank account, which must be in the name of your investment account. We cannot pay withdrawal proceeds to a third party. For withdrawal proceeds paid to New Zealand bank accounts, the conversion of your Australian dollar proceeds to New Zealand dollars will be processed by the Funds' bank at the exchange rate prevailing at the processing time.

In certain circumstances such as when there is a freeze on withdrawals, we may not be able to process withdrawals within the usual period.

Making applications, withdrawals or transfers

All our forms are available at magellaninvestmentpartners.com or can be obtained by contacting Investor Services.

Investor Services – Apex Fund Services Pty Ltd	
Phone	1300 127 780 (or +61 2 8259 8566) or 0800 787 621 (NZ)
Fax	+61 2 9247 2822
Email	magellanfunds@apexgroup.com

Address GPO Box 143, Sydney NSW 2001

How to apply

Before making an application, you should read the PDS to ensure the Fund meets your needs.

Are you a new investor to Magellan Investment Partners?

- Apply online.
 - Complete the **online application**. The online application is available at magellaninvestmentpartners.com, or
- Use the [Application Form](#).
 - Complete all relevant sections of the Application Form and submit this and all required investor identification documents to Investor Services. The paper Application Form cannot be accepted by email, it must be mailed as an original to Investor Services.

Already an investor in a Magellan Investment Partners fund?

- Make a BPAY® payment using the instructions below; or
- For other payment methods, complete all relevant sections of the [Additional Application Form](#) and submit this to Investor Services by fax, mail or email.

We may also accept applications by other electronic means, which will be outlined on our website.

Payment options are set out below.

How to withdraw

To make a withdrawal of some or all of your investment in the Fund,

- Complete all relevant sections of the [Withdrawal Form](#) and return this to Investor Services by fax, mail or email; or
- Notify Investor Services in writing indicating your account name, investor number, name of the Fund into which you are making a withdrawal and the withdrawal amount or number of Units.

Proceeds will be paid to the bank account we have on file or the bank account nominated in your withdrawal request. Bank accounts must be in the name(s) of the investor(s). We cannot pay withdrawal proceeds to a third party.

Withdrawal instructions should be signed by the nominated authorised signatory(ies). Under some circumstances, we may need to contact you to request further documentation to confirm the validity of your instruction. This may delay processing of the withdrawal request.

How to transfer

To transfer ownership of your investment in the Fund to another person or entity, complete all relevant sections of an Australian Standard Transfer Form and return this to Investor Services by fax, mail or email. If the transferee is a new investor to us, an Application Form and relevant identification documentation will also need to be supplied with the Australian Standard Transfer Form.

Payment options

We can accept payment of your application monies by BPAY® (additional applications only), Australian Dollar cheque, EFT, or direct debit (initial investments only). Direct debit requests can only be made from an Australian bank account.

1. BPAY (additional applications only)

You can make a BPAY® payment using telephone or internet banking. You will need:

- an Australian bank account;
- the Fund biller code; and
- your unique 12-digit Customer Reference Number (**CRN**). Note that this is different from your investor number. Contact Investor Services to obtain your CRN or refer to the investor portal or your latest transaction confirmation. Use your CRN as the reference number on your BPAY® transaction.

BPAY® provides you with the flexibility to make regular recurring additional applications at the frequency and amount of your choosing. The minimum for an additional application using BPAY® is \$500.

Applications made by BPAY® will be processed once we receive your funds. Although your BPAY® transaction is processed from your financial institution account immediately, your funds may take some time to be transferred to us from your financial institution.

Fund	Biller Code
Vinva Australian Alpha Extension Fund	452953

2. Electronic funds transfer

The details to transfer funds by EFT are as follows:

Fund	Bank	Account Name	BSB number	Account Number
Vinva Australian Alpha Extension Fund	National Australia Bank	Magellan Asset Management Limited ARE Vinva Australian Alpha Extension Fund	082-001	97 654 5117

Use the name of the investor or your current investor number as the reference on your EFT payment. If you make an additional application by EFT, you should also ensure that you notify Investor Services by submitting an Additional Application Form or by sending an email to them. Otherwise, there may be a delay in issuing you with Units.

3. Cheque

If you wish to pay by cheque, use the following details, and mail the cheque with your Application Form to Investor Services.

Fund	Cheque payable to
Vinva Australian Alpha Extension Fund	Magellan Asset Management Limited ARE Vinva Australian Alpha Extension Fund

4. Direct debit (initial applications only)

If you wish to pay by direct debit, complete the direct debit section of the Application Form. This will give us the authority to debit the monies from the account you nominate. Direct debit requests can only be made from an Australian bank account. Ensure you have read the terms of the Direct Debit Service Agreement, refer to the Application Form.

If you invest by cheque or request us to process a direct debit, it may take up to two Business Days (in the case of a cheque) and three Business Days (in the case of a direct debit) for your application monies to clear from the date we bank the cheque or issue a direct debit request to your bank. If we receive your cheque or direct debit request before 2pm on a Business Day we will action these on the day we receive them. If they are received after 2pm on a Business Day we will action them the following Business Day. We will not issue Units until your application monies have cleared.

If your cheque, direct debit or EFT is dishonoured by your financial institution, we will not process your application. We will not re-present a dishonoured payment unless you first contact us to discuss your application. We may deduct any fees incurred as a result of the dishonoured payment from your application amount before we issue you with Units.

Restrictions on withdrawals

Withdrawals and issuances of Units may be suspended by us for up to 28 days including where:

- it is impracticable for us (or any service provider appointed by us) to calculate the NAV of the Fund, for example, because of an inability to value the assets of the Fund or due to the closure of or trading restrictions or suspensions of securities exchanges on which any significant portion of the investments of the Fund is listed, quoted or traded;
- the Underlying Fund suspends, delays or restricts the withdrawal or payment of withdrawal proceeds;
- the payment of withdrawal proceeds involves realising a significant portion of the Fund's assets which would, in our opinion, result in remaining investors bearing a disproportionate amount of capital gains tax or expenses, or suffering any other disadvantage including a material diminution of the value of the Fund's assets or departure from the investment strategy of the Fund;
- we reasonably consider it would be in the interests of investors;
- we receive withdrawal requests of an aggregate value that in our reasonable estimate exceeds 5% of the Fund's assets; or
- it is otherwise permitted by law.

The withdrawal process, including the calculation of the exit unit price, applies only when the Fund is 'liquid' (within the meaning given to that term in the Corporations Act). Where the Fund ceases to be liquid, Units may only be withdrawn pursuant to a withdrawal offer made to all investors in the Fund in accordance with the Constitution and the Corporations Act. We are not obliged to make such offers.

Compulsory withdrawals

We may withdraw some or all of an investor's Units without asking, in accordance with the Constitution or as permitted by law. As an example, this may occur where an investor breaches their obligations to us (for example, where we believe that the Units are held in breach of prohibitions contained within the Constitution) or where we believe that the Units are held in circumstances which might result in a violation of an applicable law or regulation (for example, to cover for withholding tax applicable to distributions).

Indirect Investors

We authorise the use of this PDS as disclosure to persons who wish to access Units in the Fund indirectly through an IDPS or IDPS-like scheme (commonly referred to as a master trust or wrap account). These investors are referred to as "**Indirect Investors**".

Indirect Investors do not become registered investors in the Fund, nor do they acquire the rights of a registered investor. Instead, as the master trust or wrap account operator is investing on your behalf, it acquires the rights of investors. In most cases, references to 'you' or 'your' in the PDS (for example, receiving distribution income, reinvestment distribution income and withdrawals) is a reference to the master trust or wrap account operator and accordingly their arrangements with you will set out your rights. We do not keep personal information about Indirect Investors.

Further, some provisions of the Constitution will not be relevant to you. For example, you will generally not be able to attend meetings, or withdraw investments directly. You will receive reports from the master trust or wrap account operator, not us. The master trust or wrap account operator can exercise (or decline to exercise) those rights in accordance with the arrangements governing the operation of the master trust or wrap account.

Enquiries about the Fund should be directed to your licensed financial adviser, master trust or wrap account operator.

6. Risks of investing in the Vinva Australian Alpha Extension Fund

All investments carry risk. Different strategies may carry different levels of risk, depending on the assets that make up the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk.

There are significant risks associated with managed investment schemes generally. Before making an investment decision, it's important to understand the risks that can affect the value of your investment. Your appropriate level of risk will depend on a range of factors, including your age, investment timeframe, other investments you hold and your overall risk tolerance.

The value of your investment and level of returns will vary over time. Past performance is not an indicator of future performance, returns are not guaranteed and you may lose money on your investment. Laws affecting managed investment schemes (such as the Fund) may change in the future.

We do not guarantee that the investment objective will be achieved, that you will earn any return on your investment or that your investment will gain in value or retain its value.

Investors should consider the significant risks below before investing in the Fund. Some of the risk factors relate to the Underlying Fund in which the Fund invests.

Risk	Description of risk
Feeder fund structure risk	The feeder fund structure of the Fund presents certain risks to investors in the Fund. There is the risk of limited diversification given the Fund will be exposed to a single Underlying Fund. The Fund is likely to be one of a number of investors in the Underlying Fund, and the Fund may be materially impacted by the actions of the other investors in the Underlying Fund. Investing in the Underlying Fund may give different results than the Fund investing in global equities directly because of income or capital gains accrued in the Underlying Fund and the consequences of applications and withdrawals by other investors in the Underlying Fund. There is also the risk of potential delays in the passthrough of income to the Fund from the Underlying Fund. No guarantee can be given that the Underlying Fund will meet its investment objectives, continue to be managed according to its current investment strategy or be open to investments in the future. In the event the Underlying Fund were to be suspended, closed or terminated for any reason, the Fund would be exposed to those events.
Fund risk	Specific changes to the Fund, such as termination, changes to policies relating to the Fund, amendments to fees and expenses or a change in tax status of the Fund may have a negative impact on the investment return of the Fund.
Liquidity risk	Under extreme market conditions, the Underlying Fund may not be able to readily convert its investments into cash or at an appropriate price. The Underlying Fund may also cease to be 'liquid' for the purposes of the Corporations Act and so the Fund's ability to withdraw may be limited. In such circumstances, the Fund may be unable to liquidate sufficient assets to meet its obligations, including payment of withdrawals, within required timeframes or it may be required to sell assets at a substantial loss in order to do so.
Operational risk	The operation of the Fund will require us, the custodian, the unit registry, the administrator and other service providers to implement systems and procedures. Inadequacies with these systems, human error, or external events such as natural disasters may lead to a problem with the Fund's operation and result in a decrease in the value of units.
Regulatory risk	A change in laws and regulations governing a security, sector or financial market could have an adverse impact on the Fund's investments. A change in laws or regulations can increase the costs of operating a business and change the competitive landscape. This may impact the value of the companies held in the Fund, which may reduce the unit price of the Fund.

Indirect risks to the Fund associated with investing in the Underlying Fund

Risk	Description of risk
Active management risk	The Underlying Fund will be exposed to a smaller range of securities than are in a broad benchmark and therefore the Fund's unit price may be more sensitive to fluctuations in the share prices of those securities. The performance of the Fund may vary significantly from the performance of any benchmark.
Market risk	The market price of the underlying investments the Fund has exposure to may fluctuate as a result of factors such as inflation, interest rates or market sentiment, as well as geopolitical or economic events.

Risk	Description of risk
	<p>These fluctuations may affect the value of the investments in the Fund which may negatively impact the performance of the Fund.</p>
<p>Company specific risk</p>	<p>Investments in a company's securities will be subject to many of the risks to which that particular company is itself exposed. These risks include factors such as changes in management, actions of competitors and regulators, changes in technology and market trends. These risks may impact the value of the securities of that company, which may negatively impact the performance of the Fund.</p>
<p>Short selling risk</p>	<p>The Underlying Fund engages in covered short selling. Covered short selling involves the Underlying Fund taking a short position by 'borrowing' the security from a securities lender and selling it on the share market. When the Underlying Fund is required to return the borrowed security to the lender, the Underlying Fund will buy the security from the share market. If the share price has dropped (enough to cover the transaction and borrowing costs), the Underlying Fund may benefit as it buys the security at a lower price than the sale price. If the share price has risen the Underlying Fund will have to buy the security at a higher price than the sale price, thereby making a loss. In closing out a short position, buying the security in the share market may increase the price of the security (or the reference security if a derivative contract), which may exacerbate the loss. Covered short selling creates leverage for the Underlying Fund as it may increase the gains, or losses, the Underlying Fund achieves from its short position in the underlying securities. The potential losses associated with short selling are unlimited, as the price of the underlying security could theoretically increase without limit. Borrowed securities may also be recalled at any time, which may result in a loss when the Underlying Fund buys the securities back on the share market.</p>
<p>Derivatives risk</p>	<p>Derivatives are financial instruments, including futures contracts, forward contracts, options and swaps and other similar securities, the values of which are based on the value of one or more underlying asset such as securities, market indices, and currencies. The Underlying Fund may use exchange traded derivatives (such as futures or options) to adjust or implement investment decisions, to manage certain risks and to gain or avoid exposure to a particular market or security rather than purchasing the physical asset. Derivatives are specialised instruments that may require investment techniques and risks analysis different from those associated with ordinary portfolio securities transactions, and there can be no guarantee that their use will increase the Underlying Fund's return. Their use may cause the Underlying Fund to sustain accelerated and larger losses than would otherwise be the case. While the use of these derivatives may reduce certain risks associated with portfolio positions or provide other benefits, their use also entails certain other risks. There is no assurance that a liquid secondary market will exist for futures contracts or options purchased or sold, and the Underlying Fund may be required to maintain a position until exercise or expiration, which could result in losses. Many futures exchanges limit the amount of fluctuation permitted in contract prices during a single trading day.</p> <p>Once the daily limit has been reached in a particular contract, no trades may be made that day at a price beyond that limit. Contract prices could move to the daily limit for several consecutive trading days permitting little or no trading, thereby preventing prompt liquidation of futures and options positions and potentially subjecting the Underlying Fund to substantial losses. Derivatives typically require the Underlying Fund to post margin to secure outstanding exposure, which may cause the Underlying Fund to forego other investment opportunities. If the Underlying Fund has insufficient cash to meet daily variation margin or payment requirements, it may have to sell securities from its portfolio at a time when it may be disadvantageous to do so.</p>
<p>Investment manager risk</p>	<p>Vinva's skill and performance can have a significant impact on the investment returns of the Underlying Fund. Changes in key personnel and resources may also have a material impact on investment returns of the Underlying Fund.</p>
<p>Counterparty risk</p>	<p>Counterparties involved in the operations of the Underlying Fund, such as brokers, clearing parties, issuers or guarantors of a security or custodians may fail to perform or meet their contractual</p>

Risk	Description of risk
	obligations, which can result in a loss to the Fund. Substantial losses can be incurred if a counterparty fails to deliver on its contractual obligations or if the counterparty that is acting as the Underlying Fund's securities lender in a shorting transaction experiences insolvency.

Risk management related to the investment strategy of the Fund

We have a risk framework to support effective governance and risk management across its operations based on the Australian/ New Zealand Standard AS/NZS ISO 31000:2018 Risk Management - Principles and Guidelines. We have established an oversight governance policy to facilitate the oversight of the Fund's investment strategy. Key elements of the governance policy are:

- formal documentation that governs material aspects of the investment management services provided by the investment manager of the Underlying Fund;
- oversight over the Underlying Fund's investment process and investment performance by our Board and Strategic Product Group;
- oversight over the operations of all key service providers to the Fund including, but not limited to, the administrator and custodian;
- periodic risk assessments and monitoring of material risks as described in **Section 6**;
- transparent and regular reporting to investors, including disclosures about the Fund's performance, risks and any material changes in the Fund's investment strategy; and
- periodic oversight by our Board.

The Underlying Fund uses derivatives only in accordance with its Derivatives Risk Statement. This includes Vinva Board authorised derivative instruments, Vinva Board approval of counterparties, limiting the Underlying Fund's total market exposure from derivative positions as a proportion of fund value (as outlined in the indicative asset allocation and exposure table for the Underlying Fund in **Section 4**), and monitoring of total exposure to derivative contracts.

7. Fees and other costs

Did you know?

Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns. For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.

To find out more

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** Moneysmart website (moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

This section shows fees and other costs that you may be charged. These fees and costs may be deducted from your money, from the returns on your investment or from the assets of the Fund as a whole.

Taxes are set out in another part of this document. Taxation information is set out in **Section 8**.

You should read all the information about fees and costs because it is important to understand their impact on your investment.

Fees and costs summary

Vinva Australian Alpha Extension Fund		
Type of fee or cost	Amount ²	How and when paid
Ongoing annual fees and costs		
Management fees and costs¹ The fees and costs for managing your investment	0.77% per annum ³	The management fee is calculated daily based on the NAV before management fees of the Fund (NAV Before Fees) on that Business Day. Estimated fees are reflected in the daily unit price of the Fund and are payable monthly in arrears from the assets of the Fund.
Performance fees Amounts deducted from your investment in relation to the performance of the product	0.44% per annum ⁴	We do not charge performance fees to the Fund. Performance fees may be payable to Vinva. Vinva will be entitled to performance fees when the Underlying Fund's performance exceeds the cumulative return of the S&P/ASX 300 Accumulation Index plus 0.50% per annum. Performance fees, if payable, will be paid from the assets of the Underlying Fund quarterly in arrears and reflected in the unit price of the Underlying Fund.

Vinva Australian Alpha Extension Fund		
Type of fee or cost	Amount ²	How and when paid
Ongoing annual fees and costs		
Transaction costs The costs incurred by the scheme when buying or selling assets	0.27% per annum ³	The Fund will incur transaction costs comprising the Underlying Fund's buy/sell spread when the Fund acquires and disposes of units in the Underlying Fund and such transaction costs are paid out of the assets of the Fund as and when incurred. The Underlying Fund will also incur transaction costs when it acquires or disposes of its investments and those transaction costs are generally paid out of its assets as and when incurred. This transaction costs amount is calculated based on the Fund's NAV and net of any amounts recovered by the buy/sell spread (see " Buy and sell spreads " below).
Member activity related fees and costs (fees for services or when your money moves in or out of the product)		
Establishment fee The fee to open your investment	Nil	Not applicable
Contribution fee The fee on each amount contributed to your investment	Nil	Not applicable
Buy-sell spread An amount deducted from your investment representing costs incurred in transactions by the scheme	0.25% buy spread ⁵ 0.25% sell spread ⁵	The buy/sell spread is an allowance to cover the transaction costs that arise from the Fund's investments into and withdrawals from the Underlying Fund. It represents an additional cost to investors applying to and withdrawing from the Fund. The entry and exit unit prices for the Fund include an allowance for the buy/sell spread.
Withdrawal fee The fee on each amount you take out of your investment	Nil	Not applicable
Exit fee The fee to close your investment	Nil	Not applicable
Switching fee The fee for changing investment options	Nil	Not applicable

¹ These fees may be individually negotiated if you are a wholesale client (as defined in the Corporations Act). For further information refer to "Differential fees" in the "Additional explanation of fees and costs" section below.

² Fees and costs described above are inclusive of the net effect of Goods and Services Tax (**GST**) (i.e. inclusive of GST, less any reduced input tax credits). For more information about GST, see "GST and taxation" under the heading "Additional explanation of fees and costs".

³ Management fees and costs and transaction costs have been calculated as a reasonable estimate of such fees and costs for the current financial year expressed as a percentage of the Fund's NAV.

⁴ The estimated performance fee has been calculated as the simple average of the actual annualised performance fees of the Fund since its inception date of 2 December 2024 up to and including 30 June 2025. Past performance is no indication of future performance. The actual performance fee payable (if any) will depend on the performance of the Fund over the relevant period. For more information about performance fees, see "Performance fees" under the heading "Additional explanation of fees and costs".

⁵ For further information refer to "Buy and sell spreads" in the "Additional explanation of fees and costs" section below.

Warning: If you use the services of a financial adviser they may also charge for the services they provide. You should refer to your Statement of Advice provided to you by your financial adviser which sets out the fees payable to them.

Example of annual fees and costs

This table gives an example of how the ongoing annual fees and costs for this product can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

Example ¹ – Vinva Australian Alpha Extension Fund	Balance of \$50,000 with a contribution of \$5,000 during year ²	
Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0.
PLUS Management fees and costs	0.77% per annum	And , for every \$50,000 you have in the Fund you will be charged or have deducted from your investment \$385 each year.
PLUS Performance fees	0.44% per annum	And , you will be charged or have deducted from your investment \$220 in performance fees each year.
PLUS Transaction costs	0.27% per annum	And , you will be charged or have deducted from your investment \$135 in transaction costs.
EQUALS Cost of the Units in the Vinva Australian Alpha Extension Fund	1.48% ³ per annum	If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of: \$740 ⁴ . What it costs you will depend on the fees you negotiate.

¹ This is an example only and does not take into account any movements in the value of an investor's Units that may occur over the course of the year or any abnormal costs.

² This example assumes the \$5,000 contribution occurs at the end of the first year. Fees and costs are calculated using the \$50,000 balance only.

³ Fees and costs are inclusive of the estimated net effect of GST (i.e. inclusive of GST, less any reduced input tax credits).

⁴ This example does not capture all the fees and costs that may apply to you such as the buy/sell spread. See the "Additional explanation of fees and costs" section below for more details.

Additional explanation of fees and costs

Management fees and costs

The Fund pays a management fee of 0.77% per annum of the Fund's NAV Before Fees to us for managing and overseeing the operations of the Fund. Ordinary costs incurred in connection with the Fund (such as administration and accounting costs, unit registry fees, audit and tax fees, fees paid to Vinva for managing the Underlying Fund and investor reporting expenses) are paid by us out of the management fee. Management fees are calculated daily based on the NAV Before Fees of the Fund at the end of each Business Day and are payable at the end of each month from the assets of the Fund. Estimated management fees are reflected in the daily unit price of the Fund.

Under the Constitution, we are entitled to receive maximum management fees of 1.00% per annum (excluding GST) of the daily NAV Before Fees.

In addition to the management fee, where the Fund incurs extraordinary expenses and outgoings, we may pay for these from the Fund's assets. We may pay extraordinary expenses and outgoings from the Fund's assets because, under the Constitution of the Fund, in addition to the management fee, we are entitled to be indemnified from the assets of the Fund for any liability properly incurred by us in performing properly any of our duties or exercising any of our powers in relation to the Fund or attempting to do so. Vinva may also recover extraordinary expenses and outgoings from the Underlying Fund. No management fees will be deducted from the Fund's investment in the Underlying Fund.

Performance fees

The Constitution allows us charge a performance fee of up to 20% of the excess return of the Units above the S&P/ASX 300 Accumulation Index. As at the date of the PDS, we have determined not to charge a performance fee to the Fund as Vinva charges a performance fee to the Underlying Fund.

Vinva is entitled to a performance fee when the Underlying Fund's cumulative investment performance exceeds the cumulative return of the S&P/ASX 300 Accumulation Index plus 0.50% per annum (**Performance Hurdle**). The Performance fee will be calculated daily as 15% of the excess dollar value of the cumulative investment performance of the Underlying Fund over the Performance Hurdle. If the cumulative investment performance of the Underlying Fund is less than the Performance Hurdle on any given day, the shortfall will be carried forward until the cumulative investment performance exceeds the Performance Hurdle.

The performance fee is accrued daily in the unit price of the Underlying Fund and deducted quarterly in arrears from the Underlying Fund's assets. This performance fee will be an indirect cost to you.

Transaction costs

Transaction costs such as the buy/sell spread the Fund incurs when transacting in the Underlying Fund, brokerage, settlement costs and transactional taxes are incurred by the Fund when the Fund acquires and disposes of securities. Transaction costs also include a portion of costs incurred by the Underlying Fund that are attributable to the Fund's investment in the Underlying Fund. The transaction costs for the Fund are provided in the "Fees and costs summary" above. These are based on the reasonable estimate of the transaction costs for the current financial year and are shown net of any amount recovered by the buy/sell spread that is charged by us.

The gross and net transaction costs estimated for the Fund for the current financial year are provided in the table below.

Total gross transaction costs (% per annum)	Recovery through buy/sell spread ¹ (% per annum)	Net transaction costs (% per annum)	For every \$50,000 you have in the Fund you will likely incur approximately
3.62%	3.35%	0.27%	\$135

¹ For more information, see "Buy and sell spreads".

The amount of such costs will vary from year to year depending on the volume and value of the trading activity in the Underlying Fund, and the value of applications and withdrawals processed within the Fund and the Underlying Fund.

Transaction costs incurred by the Fund are paid out of the assets of the Fund, and transaction costs incurred by the Underlying Fund are generally paid out of the assets of the Underlying Fund, as and when incurred. Transaction costs are not paid to us.

Transaction costs are an additional cost to the investor where they have not already been recovered by the buy/sell spread charged by us.

Buy and sell spreads

A portion of the total transaction costs are recovered from investors applying to and withdrawing from the Fund. New applications into the Fund or withdrawals from the Fund will typically cause the Fund and the Underlying Fund to incur transaction costs. So that existing investors in the Fund do not bear the transaction costs that arise from these applications and withdrawals, the entry and exit unit prices include an allowance to cover these costs. This allowance to cover transaction costs (sometimes called the 'buy spread' and the 'sell spread') represent an additional cost to investors applying to and withdrawing from the Fund and are not fees paid to us.

Fund	Buy spread (% of NAV unit price)	Sell spread (% of NAV unit price)	Cost of the buy spread for every \$50,000 you invest in the Fund	Cost of the sell spread for every \$50,000 you withdraw from the Fund
Vinva Australian Alpha Extension Fund	0.25%	0.25%	\$125	\$125

We may vary the buy and sell spreads from time to time and prior notice will not ordinarily be provided. Updated information on the buy and sell spreads is available at magellaninvestmentpartners.com.

Fees for Indirect Investors

For investors accessing the Fund through an IDPS, IDPS-like scheme or a nominee or custody service (collectively referred to as a master trust or wrap account), additional fees and costs may apply. These fees and costs are stated in the offer document provided by your master trust or wrap account operator. These are not fees paid to us.

Payments to platforms

Some master trusts, wrap accounts or other investment administration services (**Platforms**) charge product access payments fees (as a flat dollar amount each year) for having the Fund included on their investment menus. We may, therefore, pay amounts from the fees we receive to any Platform through which the Fund is made available. As these amounts are paid by us out of our own resources, they are not an additional cost to you.

Financial adviser fees

If you use the services of a financial adviser they may also charge for the services they provide. You should refer to your Statement of Advice provided by your financial adviser which sets out the fees payable to them. We pay no commissions related to your investments to financial advisers.

Differential fees

A rebate or reduction of the management fees or other fees may, at our discretion, be negotiated with investors who are wholesale clients for the purposes of the Corporations Act. Further information can be obtained by contacting us.

Our employees or employees of a related entity that invest in the Fund may, at our discretion, be subject to lower fees than the fees stipulated in this **Section 7**.

Changes in fees

Fees may increase or decrease for a number of reasons including changes in the competitive, industry and regulatory environments or simply from changes in costs. We can change fees without an investor's consent, however it will provide investors with at least 30 days written notice of any fee increase.

GST and taxation

Unless otherwise stated, the fees and costs stated in this PDS are inclusive of the estimated net effect of GST (i.e. inclusive of GST, less any reduced input tax credits). To the extent the GST impact increases (for example, due to changes in the size of the Fund), the actual fees may vary from the rates stated above.

Your investment may be subject to tax. Taxation information is set out in **Section 8** of this document.

8. Taxation

Warning: Investing in the Fund is likely to have tax consequences. Before investing in the Fund, investors are strongly recommended to seek their own professional tax advice about the applicable Australian tax consequences and, if appropriate, foreign tax consequences that may apply to them based on their particular circumstances.

The taxation information contained in this PDS reflects the income tax legislation in force, and the interpretation of the Australian Taxation Office and the courts, as at the date of issue of this PDS. Taxation laws are subject to continual change and there are reviews in progress that may impact the taxation of trusts and investors.

Attribution Managed Investment Trust regime

The Fund has elected to become an Attribution Managed Investment Trust (**AMIT**). Accordingly, investors will be subject to tax on the income of the Fund that is attributed to them under the AMIT rules each year ending 30 June. If there is income of the Fund that is not attributed to an investor, the Fund will be subject to tax at the highest marginal rate (plus the Medicare levy) on that non-attributed income.

The AMIT rules also allow the Fund to reinvest part or all of your distribution and/or accumulate part or all of the Fund's income in the Fund, in which case the income of the Fund that is attributed to you (and which must be included in your income tax return) will be more than the total cash distribution you receive (**Excess**). The tax cost base of your Units will increase to the extent of the Excess.

Investors will be assessed for tax on the net income and net capital gains generated by the Fund that is attributed to them under the AMIT rules. Investors will receive an AMMA Statement after the end of each financial year which will provide them with details of the amounts that have been attributed to them by the Fund to assist them in the preparation of their tax return. The Fund may attribute an estimate of net capital gains generated as a result of withdrawals of the Fund.

If the Fund were to incur a tax loss for a year then the Fund could not attribute that loss to investors. However, subject to the Fund meeting certain conditions, the Fund may be able to recoup such a loss against taxable income of the Fund in subsequent income years.

Depending on an investor's particular circumstances, they may also be liable to pay capital gains tax (or income tax if they hold their Units on revenue account) when they withdraw Units.

Taxation of non-resident investors

If a non-resident investor is entitled to taxable income of the Fund, the investor may be subject to Australian tax at the rates applicable to non-residents. If you are a non-resident, you may be entitled to a credit for Australian income tax paid by us in respect of your tax liability.

Taxation reforms

Reforms to the taxation of trusts are generally ongoing. Investors should seek their own advice and monitor the progress of announcements and proposed legislative changes on the potential impact to their investment.

Quoting your Tax File Number or an Australian Business Number

It is not compulsory for investors to quote their Tax File Number (**TFN**), Australian Business Number (**ABN**) or exemption details. Should an investor choose to, the TFN/ABN must be provided to Investor Services by the Record Date. However, should an investor choose not to provide their TFN/ABN details or they provide these details after the Record Date, we are required to deduct tax from an investor's distributions. The withholding tax amount is calculated on the amount attributed to you. Collection of TFNs is permitted by taxation and privacy legislation.

GST

Your investment in the Fund will not be subject to goods and services tax.

Foreign Account Tax Compliance Act

Under the Foreign Account Tax Compliance Act (**FATCA**), we are required to collect and report information about certain investors identified as U.S. tax residents or citizens. In order to comply with our FATCA obligations, we may request investors to provide certain information (**FATCA Information**).

To the extent that all FATCA Information is obtained, the imposition of U.S. withholding tax on payments of U.S. income or gross proceeds from the sale of particular U.S. securities shall not apply. Although we attempt to take all reasonable steps to comply with our FATCA obligations and to avoid the imposition of the withholding tax, this outcome is not guaranteed.

Under the terms of the intergovernmental agreement between the U.S. and Australian governments, we may provide FATCA Information to the Australian Taxation Office (**ATO**). We may use an investor's personal information to comply with FATCA and may contact an investor if additional information is required.

Common Reporting Standard

The Common Reporting Standard (**CRS**) requires us to collect certain information about an investor's tax residence. If an investor is a tax resident of any country outside Australia, we may be required to pass certain information about the investor (including account-related information) to the ATO. The ATO may then exchange this information with the tax authorities of another jurisdiction or jurisdictions, pursuant to intergovernmental agreements to exchange financial account information. Although the CRS does not involve any withholding tax obligations, we may use an investor's personal information to comply with the CRS obligations, and may contact an investor if additional information is required. For investors who apply for Units, the account opening process cannot be completed until all requested information has been provided.

9. Additional information

Additional disclosure information

The Fund is subject to regular reporting and continuous disclosure obligations. Copies of documents lodged with ASIC may be obtained from, or inspected at, an ASIC office. Investors can also call us to obtain copies of the following documents, free of charge:

- the Fund's annual financial report most recently lodged with ASIC;
- any half year financial report lodged with ASIC; and
- any continuous disclosure notices we place online at magellaninvestmentpartners.com or lodge with ASIC.

Constitution

The operation of the Fund is governed under the law and the Constitution which addresses matters such as unit pricing, withdrawals, the issue and transfer of Units, investor meetings, investors' rights, our powers to invest, borrow and generally manage the Fund and our fee entitlement and right to be indemnified from the Fund's assets.

The Constitution states that an investor's liability is limited to the amount the investor paid for their Units, although the courts are yet to determine the effectiveness of provisions of this kind.

We may alter the Constitution if we reasonably consider the amendments will not adversely affect investors' rights. Otherwise, we must obtain investors' approval at a meeting of investors. We may retire as responsible entity with investors' approval or be required to retire as Responsible Entity if investors vote for our removal. No Units may be issued after the 80th anniversary of the date of the Constitution. Subject to the Constitution and the Corporations Act, we may exercise our right to terminate the Fund earlier. Investors' rights to requisition, attend and vote at meetings are mainly contained in the Corporations Act.

Investors can inspect a copy of the Constitution at our head office or we will provide a copy free of charge.

NAV Permitted Discretions Policy

Our NAV Permitted Discretions Policy provides further information about how we calculate NAV per Unit. The policy complies with ASIC requirements. We will observe this policy in relation to the calculation of the NAV per Unit and will record any exercise of discretion outside the scope of the policy. Investors can request a copy of the policy from us free of charge.

Change of details

From time to time, you may need to advise us of changes relating to your investment. You may advise us by email, fax or mail of changes relating to:

- your mailing address;
- your licensed financial adviser, if you have nominated one; or
- your election to receive distributions as cash or to reinvest them.

If you need to advise us of changes relating to your nominated bank account (to which we will pay the proceeds of withdrawals and distributions, if you have elected to receive these as cash), we require you to instruct us by mail. We require your instructions to be signed by the nominated signatory on your account. If

you have nominated joint signatories for the account, both should sign notifications of changes in any of your details.

Cooling-off period

If you are a retail investor, a 14-day “cooling-off period” may apply to your initial investment in the Fund in certain circumstances. If, during the 14-day cooling-off period, you decide that the investment does not meet your needs, then you should immediately notify us. If you exercise your cooling-off rights we will return your money to you. However, the amount you receive will reflect any market movement up or down which means there may be taxation implications for you. We will also deduct any tax or duty incurred and a reasonable amount for transaction and administration costs. As a result, the amount returned to you may be less than your original investment.

The 14-day cooling-off period starts on the earlier of the date when you receive confirmation of your transaction or the end of the 5th calendar day after the day we issue the Units to you. The cooling-off period will lapse if you transact on your account within the 14 days. Under normal circumstances refunds will be made within seven Business Days of you notifying us. For more information, call Investor Services on 1300 127 780 (or +61 2 8259 8566).

Complaints resolution

Should an investor have any concerns or complaints, as a first step they should contact our Complaints Officer on +61 2 9235 4888 and we will do our best to resolve this concern quickly and fairly. If an issue has not been resolved to your satisfaction, you can lodge a complaint with the Australian Financial Complaints Authority (**AFCA**). AFCA provides fair and independent financial services complaint resolution that is free to consumers.

You can contact AFCA on 1800 931 678, by writing to AFCA at GPO Box 3, Melbourne VIC 3001 or by emailing info@afca.org.au.

Past performance

Performance history and Fund size information can be obtained by visiting our website magellaninvestmentpartners.com, The Fund’s past performance is no indication of its future performance. The Fund’s returns are not guaranteed.

Consents

The following parties have given written consent (which has not been withdrawn at the date of this PDS) to being named in the form and context in which they are named, in this PDS:

- Apex Fund Services Pty Limited;
- KPMG;
- MUFG Corporate Markets FS Pty Ltd;
- Macquarie Bank Limited;
- PricewaterhouseCoopers Australia;
- The Northern Trust Company; and
- Vinva Investment Management Limited.

Each party named above who has consented to be named in the PDS:

- has not authorised or caused the issue of this PDS;
- does not make or purport to make any statement in the PDS (or any statement on which a statement in the PDS is based) other than as specified; and
- to the maximum extent permitted by law, takes no responsibility for any part of the PDS other than the reference to their name in a statement included in the PDS with their consent as specified.

Anti-money laundering and counter terrorism financing

Australia's anti-money laundering and counter terrorism financing (**AML/CTF**) laws require us to adopt and maintain an AML/CTF Program. A fundamental part of the AML/CTF Program is that we know certain information about investors in the Fund. To meet this legal requirement, we need to collect certain identification information and documentation (**KYC Documents**) from you if you are a new investor. We may also ask an existing investor to provide KYC Documents as part of a re-identification process to comply with the AML/CTF laws. Processing of applications or withdrawals will be delayed or refused if you do not provide the KYC Documents when requested.

Under the AML/CTF laws, we may be required to submit reports to the Australian Transaction Reports and Analysis Centre (**AUSTRAC**). This may include the disclosure of your personal information. We may not be able to tell you when this occurs and, as a result, AUSTRAC may require us to deny you (on a temporary or permanent basis) access to your investment. This could result in loss of the capital invested, or you may experience significant delays when you wish to transact on your investment. We are not liable for any loss you may suffer because of compliance with the AML/CTF laws.

Privacy policy

As required by law, we have adopted a privacy policy that governs the collection, storage, use and disclosure of personal information. This includes using an investor's personal information to manage their investment, process any distributions that may be payable and comply with relevant laws. For example, an investor's personal information may be used to:

- ensure compliance with all applicable regulatory or legal requirements. This includes the requirements of ASIC, the Australian Taxation Office, the Australian Transaction Reports and Analysis Centre and other regulatory bodies; and
- ensure compliance with the AML/CTF Act, FATCA and with CRS.

We may be required to disclose some or all of an investor's personal information, for certain purposes (as described under the Privacy Act 1988 (Cth)) to:

- the Fund's service providers, related bodies corporate or other third parties for the purpose of account maintenance and administration and the production and mailing of statements, such as Investor Services, the Custodian or auditor of the Fund and certain software providers related to the operational management and settlement of the Units; or
- related bodies corporate that might not be governed by Australian laws for the purpose of account maintenance and administration.

We may also disclose an investor's personal information to:

- market products and services to them; and
- improve customer service by providing their personal details to other external service providers (including companies conducting market research).

If any of the disclosures in the previous bullet points require transfer of an investor's personal information outside of Australia, the investor consents to such transfer.

All personal information collected by us will be collected, used, disclosed and stored by us in accordance with our privacy policy available at magellaninvestmentpartners.com or you can obtain a copy free of charge by contacting us. The privacy policy also contains information about:

- how to access and correct information that we hold about you; and
- how to make a complaint about a breach of the Australian Privacy Principles.

Additional information for New Zealand investors

This offer to New Zealand investors is a regulated offer made under Australian and New Zealand law. In Australia, this is Chapter 8 of the Corporations Act and regulations made under that Act. In New Zealand, this is subpart 6 of Part 9 the Financial Markets Conduct Act 2013 and Part 9 of the Financial Markets Conduct Regulations 2014.

This offer and the content of the offer document are principally governed by Australian rather than New Zealand law. In the main, the Corporations Act and the regulations made under that Act sets out how the offer must be made.

There are differences in how financial products are regulated under Australian law. For example, the disclosure of fees for managed investment schemes is different under the Australian regime.

The rights, remedies, and compensation arrangements available to New Zealand investors in Australian financial products may differ from the rights, remedies, and compensation arrangements for New Zealand financial products.

Both the Australian and New Zealand financial markets regulators have enforcement responsibilities in relation to this offer. If you need to make a complaint about this offer, please contact the Financial Markets Authority, New Zealand (fma.govt.nz). The Australian and New Zealand regulators will work together to settle your complaint.

The taxation treatment of Australian financial products is not the same as for New Zealand financial products.

If you are uncertain about whether this investment is appropriate for you, you should seek the advice of a financial advice provider.

The offer may involve a currency exchange risk. The currency for the financial products is not New Zealand dollars. The value of the financial products will go up or down according to changes in the exchange rate between that currency and New Zealand dollars. These changes may be significant.

If you expect the financial products to pay any amounts in a currency that is not New Zealand dollars, you may incur significant fees in having the funds credited to a bank account in New Zealand in New Zealand dollars.

If the financial products are able to be traded on a financial product market and you wish to trade the financial products through that market, you will have to make arrangements for a participant in that market to sell the financial products on your behalf. If the financial product market does not operate in New Zealand, the way in which the market operates, the regulation of participants in that market, and the information available to you about the financial products and trading may differ from financial product markets that operate in New Zealand.

The dispute resolution process described in this offer document is available only in Australia and is not available in New Zealand.

10. Glossary

Defined terms and other terms used in the PDS	Definition
\$, A\$ or dollar	The lawful currency of Australia.
Additional Application Form	The current additional application form for the Fund.
AFCA	Australian Financial Complaints Authority.
AFSL	Australian financial services licence.
AMIT	Attribution Managed Investment Trust.
AML/CTF Act	The Anti-Money Laundering and Counter-Terrorism Financing Act 2006 (Cth).
AMMA Statement	AMIT Member Annual Statement.
Apex	Apex Fund Services Pty Ltd.
Application Form	The current application form for the Fund.
ASIC	Australian Securities and Investments Commission.
ASX	The Australian Securities Exchange.
ATO	Australian Taxation Office.
Business Day(s)	A business day in New South Wales or such other day or days determined by us.
Constitution	The Constitution of the Fund.
Corporations Act	Corporations Act 2001 (Cth).
CRS	Common Reporting Standard.
Custodian	Northern Trust.
Custody Agreement	The Master Custody Agreement in respect of the assets of the Fund between the Custodian and us.
EFT	Electronic Funds Transfer.
FATCA	Foreign Account Tax Compliance Act.
Fees and Costs	The fees and costs of the Fund as described in Section 7 .
Fund	Vinva Australian Alpha Extension Fund (ARSN 681 299 230).
GST	Goods and Services Tax.
IDPS	Investor Directed Portfolio Service.
Indirect Investors	Persons who wish to access Units in the Fund indirectly through an IDPS or IDPS-like scheme (commonly referred to as a master trust or wrap account).

Defined terms and other terms used in the PDS	Definition
Investor Services or Apex	Apex Fund Services Pty Ltd, who operates the unit registry for the Fund.
JP Morgan	JP Morgan Chase & Co.
MUFG	MUFG Corporate Markets FS Pty Ltd.
NAV	Net asset value.
NAV Before Fees	The NAV before management fees.
NAV Permitted Discretions Policy	Our policy detailing the discretions exercised in the calculation of NAV per Unit.
Northern Trust	The Northern Trust Company (acting through its Australian branch).
PDS	This product disclosure statement as amended or supplemented from time to time.
PwC	PricewaterhouseCoopers Australia.
Record Date	The date used in determining who is entitled to a distribution. Those investors on the register on the Record Date are eligible for the distribution.
Registry Services Agreement	The Fund Administration Services Agreement in respect of the Fund between us and Apex.
Responsible Entity or Our or We or Us	Magellan Asset Management Limited ABN 31 120 593 946, AFSL 304 301 trading as Magellan Investment Partners.
Units	Units in the Fund.
Underlying Fund	Vinva Australian Equity Alpha Extension Fund (ARSN 147 934 352).
Vinva	Vinva Investment Management Limited.
Withdrawal Form	The form for withdrawal of Units from the Fund.
