

Vinva Global Alpha Fund - Hedged

APIR: MGE0007AU | ARSN: 164 285 661

To Australian wholesale and retail investors

31 July 2026

INVESTMENT STRATEGY	OBJECTIVE	INVESTMENT APPROACH	INVESTMENT RISKS
The Fund invests in a core holding of global listed securities which are included in the Benchmark and may also use exchange traded and over-the-counter (OTC) derivatives to gain exposure to global listed securities or indices or for risk management. The Fund may also have some exposure to cash and cash equivalents. The Fund's foreign currency exposure is substantially hedged back to Australian dollars.	The Fund aims to outperform the MSCI All Country World ex Australia ex Tobacco ex Controversial Weapons Index (hedged to AUD) with net dividends reinvested, after fees, over periods of three years or longer.	Vinva uses an active systematic investment approach which harvests returns from global listed companies using a disciplined and repeatable process. The Fund's portfolio will typically comprise over 300 investments and is managed to be style neutral and therefore not expected to be materially correlated to a single company, country, industry specific or macroeconomic risks.	All investments carry risk, returns are not guaranteed and there is a risk that investors may lose money on any investment they make. The Fund's Product Disclosure Statement (PDS) sets out the significant risks relevant to the Fund. You can view the PDS at www.magellaninvestmentpartners.com
