INVESTMENT STRATEGY	OBJECTIVE	INVESTMENT APPROACH	INVESTMENT RISKS
The Fund invests substantially all of its assets in the Vinva International Equity Fund, (the "Underlying Fund"), which is a registered managed investment scheme managed by Vinva Investment Management Limited. The Underlying Fund, invests substantially all of its assets in global listed securities (or derivatives that provide exposure to global listed securities or indices).	The primary objective of the Fund is to outperform the return of the MSCI All Country World ex Australia ex Tobacco ex Controversial Weapons Index (AUD) with net dividends reinvested over periods of three years or longer.	Vinva uses an active systematic investment approach which harvests returns from global listed companies using a disciplined and repeatable process. The Underlying Fund's portfolio will typically comprise over 400 investments and is managed to be style neutral and therefore not expected to be materially correlated to a single company, country, industry specific or macroeconomic risks.	All investments carry risk, returns are not guaranteed and there is a risk that investors may lose money on any investment they make. The Fund's Product Disclosure Statement (PDS) sets out the significant risks relevant to the Fund. You can view the PDS at www.magellangroup.com.au .
